

**Medicaid is a lifeline for people with mental health and substance use conditions.**

**More than 1.2 MILLION ADULTS** in Missouri live with a mental illness.

**More than 115,000 ADOLESCENTS** in Missouri ages 12–17 have depression or anxiety.

Medicaid is the nation's largest funder of mental health (MH) condition and substance use disorder (SUD) services. **Nearly 40%** of non-elderly adults on Medicaid have a MH/SUD condition.

### Cuts to Medicaid would:

Make it even more challenging for people with mental health conditions to see a therapist, afford a prescription, and manage their co-occurring physical health conditions.

Disrupt our state mental health agency's work — about half of state mental health agency funding nationally comes from Medicaid.

Disrupt our state's response to the opioid epidemic, making it harder for people with SUD to access life-saving treatment.

**Missouri received \$13 billion in federal support for Medicaid in 2023 — 79% of total Medicaid spending in the state.**

**Cuts to Medicaid are unpopular: 82% of Americans oppose cuts to Medicaid funding.**

**Missouri cannot afford to lose federal Medicaid funding.**
